Total Boom Deployed	NA			
Activity	<p><u>START SOTF Team 6 Activity:</u></p> <p>SOTF#9 Hugh Murrell (START), Enbridge Team Lead Blake Schwartz, and Leica operator Russell Platte performed poling at 9 locations within focus area 20.10 – 20.30. A total of 5 locations had an overall submerged oil category of none, 10 locations had a category of light, 2 locations had a category of heavy, and 1 had a category of moderate.</p> <p>Due to lack of availability of a functioning Leica, our team met with Tetra Tech Team H to shadow them and have them shoot some locations with their Leica for us to perform poling. We ended up delineating an area that Team H had found some Heavy areas of sheen. This was in area 20.100. We had numerous support boat problems today and it is hoped that this problem will be fixed after the Memorial Day holiday.</p> <p>The reported moderate and heavy locations will be marked for later assessment by the Tetra Tech crews.</p>			

Health and Safety Issues	None
